Mr. O. W. Sitterud
Orangeville, Utah

Re: Cottonwood Creek Distribution

Dear Sir:

This acknowledges receipt of your report as water commissioner on Cottonwood Creek for the year 1943. Although this report does not fully cover the period it at least shows your attitude in desiring to obtain some record of distribution on the stream. I thank you kindly for the report.

In answer to your letter dated April 25th, you are advised that due to manpower shortages in the engineer profession it does not seem possible for you to employ a professional engineer to act as water commissioner.

For this reason it is deemed inadvisable to appoint a water commissioner for Cottonwood Creek for the season of 1944.

Yours very truly,

Ed. H. Watson
State Engineer
